

Public Site

How can coaches enter game scores?

Coaches can enter game scores by logging into the public website. They can select their team from the drop down and selecting enter game scores. The games that their team has played, both scored and unscored, will be listed on the next screen.

The screenshot shows the MYL (manage your league) website interface. At the top left is the MYL logo with the tagline 'manage your league' and icons for baseball, softball, soccer, and tennis. Below the logo is the text 'Opponent Stat Report'. A 'Teams' dropdown menu is open, showing three options: 'M70 - Test', 'Rainout Test 1', and 'Rainout Test 2'. Below the dropdown, there is a text box with the instruction: 'Click on a game to open up the single game score and statistics entry page. Games listed from oldest to newest.' Below this is a table titled 'Unscored/Unsubmitted Games:'. The table has columns for 'Date', 'Game', 'Home Score', 'Away Score', 'Forfeit/Save', and 'Saved'. The first row shows a game on 'Sat, Jun 06, 2015' with 'H: Rainout Test 1 vs. A: Rainout Test 2'. There are empty input boxes for 'Home Score' and 'Away Score', and 'Submit' and 'Forfeit' buttons. Below the table is a section titled 'Scored/Submitted Games:' with the text 'No scored games.'

Coaches can enter games scores into the appropriate home and away score fields and clicking submit. They can also click forfeit if one of the teams forfeited the game.
