How can coaches enter game stats for players?

Coaches can enter stats for players by logging into the public website, selecting their team from the team drop-down menu, and clicking entering game stats.

The screenshot shows the 'Unscored Games' section of the Manage Your League website. At the top, there's a navigation bar with 'Older' and 'Newer' links. Below it, the game is listed as 'Royals' vs 'Braves' with a score of '0' for both teams. The date and time are '9:00:00 am, 05-23-2015'. There are buttons for 'Save Score' and 'Forfeit'. Below the score, there's a 'Statistics: Braves' section with tabs for 'General', 'Pitching Stats', 'test', 'Pitching', 'Offensive Stats', and 'Offense'. The 'General' tab is selected, showing a table of player statistics.

Player	R	RBI	Wb	SB	SNG	2B	3B	HR	AVG	Hits	OB%	SO-Bat	AB
Cox, John	0	0	0	0	0	0	0	0	0	0	0	0	0
Cambell, Al	0	0	0	0	0	0	0	0	0	0	0	0	0
Collins, Al	0	0	0	0	0	0	0	0	0	0	0	0	0

Coaches can select the game that they wish to enter stats for, and the players for their team will be listed below the game score. They can view different stat categories by clicking the name of the category they want. They enter stats by entering the stat inside of the text field that is in the row of the player that its for and under the stat column that they want.
