

Public Site

How can coaches enter game stats for players?

Coaches can enter stats for players by logging into the public website, selecting their team from the team drop-down menu, and clicking entering game stats.

The screenshot shows a web interface for entering game statistics. At the top, there are navigation links for "Older" and "Newer", and a dropdown menu for "Unscored Games". Below this, the game score is displayed as "Royals 0" vs "Braves 0". There are buttons for "Save Score" and "Forfeit", and a timestamp "9:00:00 am, 05-23-2015". The "Statistics: Braves" section is active, showing a table of player statistics.

General													
Player	R	RBI	Wb	SB	SNG	2B	3B	HR	AVG	Hits	OB%	SO-Bat	AB
Cox, John	0	0	0	0	0	0	0	0	0	0	0	0	0
Cambell, Al	0	0	0	0	0	0	0	0	0	0	0	0	0
Collins, Al	0	0	0	0	0	0	0	0	0	0	0	0	0

Coaches can select the game that they wish to enter stats for, and the players for their team will be listed below the game score. They can view different stat categories by clicking the name of the category they want. They enter stats by entering the stat inside of the text field that is in the row of the player that its for and under the stat column that they want.
