## How do I enter player stats as an administrator?

Navigate to members->players/parents->statistics & evaluations->enter statistics.  
You will see the form below:

Please choose a level:

Please choose a team:

Please choose a game:

Please choose a stat group:

First, you will only see choose a level, but the other options will appear as you make your selections. Once you have made your selections, you will a table for each stat group that you selected, displaying stats for all the players who played in the game.
