

Registration

How do I add/edit/remove input fields in registration?

Fields such as the ones pictured below (e.g. shirt size, primary position, doctor, doctor's phone number, etc.) are known as **custom fields**.

Additional Info

Physician Name

Physician Phone

Shirt Size

You can edit custom fields on the admin site by navigating to Setup->Registration->Registration Setup Wizard. You can add fields to either the parent page step or the player step. Choose which role you would like to add the field to, click the "New Field" button, and fill out the fields in the window.

Custom Field List

Name	Display	Action
Waiver Check	No	<div>Edit</div>
Physician Name	Yes	<div>Edit</div>
Physician Phone	Yes	<div>Edit</div>
Shirt Size	Yes	<div>Edit</div>
