How do I copy a fee group?

Navigate to Setup>Registration>Fee Structure. The copy option (located in the same place as the edit/delete buttons) is a useful tool that can be used to copy a fee group and all its attributes and fee codes into a new, separate fee group. You will have the option to change the name and season when copying, and after it is copied, you will be able to modify any part of it just like any other fee group.

Season Type Click on a [Fee Group](#) below to view the [Fee Codes](#) associated with it.
