How do I use the game roster manager?

The game roster manager is where you can setup the game roster for players/parents to view on the website. However, keep in mind that changes made here do not affect the actual team roster. Navigate to communication->website->game roster manager.

Roster Team 1
Athletics
Test Team 1
Braves
Yankees
Add a Team
Choose a Team

You will see a list of teams here. You can create or select an existing team by choosing add a team.

Add A Team

Team Name:

Team Abbr:

-- OR --

Select Existing:

Add

The players listed on the team page will auto-populate with players if it is an existing team with players on it.
