division. It also displays information for each player, such as overall average, age, school, and siblings.

The team drop-down selects the team that you would like to draft players to.

The unassign selected button takes players that you have selected from the team columns, and places them back into the draft pool.

The add to team button will take selected players from the draft pool and add them to the team you have selected from the team drop-down.

The "Draft Pool Divisions" button will add players to the draft pool from other divisions.

Clicking "Draft Type: Eval Order" will show you the screen below. The parents of drafted players on the team you currently have selected from the team drop-down who have selected coaching preferences will be listed here. You can either keep their assignment preferences or assign them to a different position. The "Make Assignments" button will make those assignments for you. You will also see this screen whenever you draft a player that has parents with coaching preferences.

Parents of the drafted players have made coaching preferences. Please make the appropriate selections below.
Note: This will assign the coach to the following team: Dodgers

To revert the assignment of recently drafted players with parent preferences, click Cancel.
To avoid making any coach changes, close this popup.

The draft pool is sort by last name by default. You can change this by clicking "Draft Pool Sort Options". The criteria to sort by will be listed under "Sorting Options", which you can add to the "Current Sort Order" by selecting it and then clicking "Add to sorting order >>". Click "Submit" to keep those changes.
